

I would like to comment on the new Low Power FM broadcast service in regards to the possibility that they may take priority over current FM translator service. I am a current listener and supporter of K-LOVE radio. This station is a huge asset to the community and nation by the wholesome values and great music it puts over the airwaves. I only listen to 2 radio stations and this is one of them. I do not want to lose the ability to get reception to this station because it might get a lower or no priority on the airwaves because it uses FM translators so listeners can enjoy positive, encouraging music. There is sooo much trash over the airwaves now I would hate to loose the ability to hear the GOOD station. Do not force this station off the air in order to expand LPFM service. Thank you.
